

## A vision for the curriculum at Ysgol Dyffryn Conwy

Nothing is more essential than every learner who comes to Ysgol Dyffryn Conwy:

- has access to a broad and balanced education within a happy family environment,
- has full access to the experiences and knowledge they need to thrive,
- develop various skills in preparation for the world of work,
- is ready for lifelong learning and active citizenship,
- be inspired to take pride in their identity through the Welsh language, culture and bilingualism.

The four purposes are a shared vision, and this is the aspiration for all learners here at Ysgol Dyffryn Conwy.

The school curriculum is everything learners experience in pursuit of the four purposes.

To make these happen we will:

- inspire learners to succeed, prosper and grow by setting high expectations for all,
- promote personal wellbeing and give everyone the opportunity to experience success and fulfill their potential,
- challenges ignorance and false information,
- encourage learners to play their part as alert and critical citizens.

It's more than just what we teach. It's also about how we teach it, what we learn and, crucially, why we teach it.
