THE UNIVERSITY
of EDINBURGH

Welsh Baccalaureate

Entry requirements for applicants with Welsh Baccalaureate qualifications.

If you are studying the Welsh Baccalaureate Advanced Diploma, you will be required to achieve either three A levels, or two A levels plus the Advanced Skills Baccalaureate Wales. Our entry requirements will vary depending on the degree you are applying for.

Welsh qualifications

The University is aware that framework for the Advanced Welsh Baccalaureate has now been withdrawn, but that students are still able to take the Advanced Skills Challenge Certificate as a standalone qualification.

The University recognises that this qualification will provide students with the opportunity to develop research and academic skills relevant for study at Oxford, particularly through the independent research project, and applicants are encouraged to draw upon their experiences when writing the personal statement. However, the Advanced Skills Challenge Certificate will not form the basis of any offers, and conditional offers are likely to range between A*A*A and AAA at A-level, depending on the course.
